ex•tend•it DVI • 100

Sender/Receiver KVM Extender

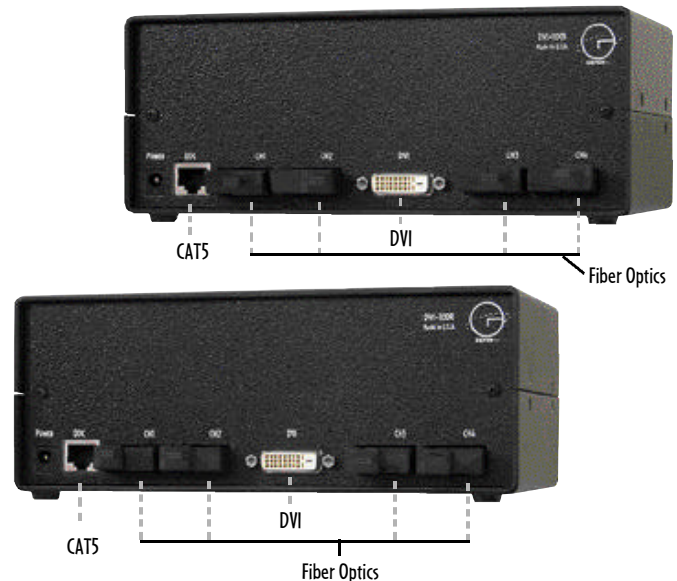

Extend your Digital LCD Monitor up to 330 feet away from your computer

The ex•tend•it DVI•100 extends your DVI monitor up to 330 feet away from your computer. The DVI•100 keeps your desk clutter-free, relocating your computer to a safe and secure area, while allowing you to work in a quieter environment.

How it works:

The DVI•100S sender unit sits next to your computer. Cables supplied with the DVI•100 package connect your computer to the send unit. The DVI•100R receive unit sits next to your DVI monitor - up to 330 feet away. The DVI monitor plugs into the back of the DVI•100 receiver unit.

One CAT5 cable and two dual ST mode fiber optic cables connect the DVI•100S and the DVI•100R units to each other.

Specifications:

DVI Amplifier Bandwidth:
2.4 GHz

Actual Bandwidth: 1.6 GHz

Input Video Signal: 1.2 volts p-p

Input DDC Signal: 5 volts p-p (TTL)

Link Connector: RJ-45
